

Elliott Wave Analyst

Performance, 2007 series

The following summarizes the trades advised by the ElliottWaveAnalyst newsletter for the year 2007 Expiry of derivatives. The Low and Medium Risk trades are the ones which capture the true spirit of the newsletter. Apart from these, High Risk trades are also suggested for the more aggressive types. But these are typically few and far in between. It is strongly advised that people only limit themselves to Low / Medium Risk trades and avoid the High Risk ones.

Summary of Low / Medium Risk Trades

Month	Profit / Loss after brokerage
March	300
April	80
October	1230
November	214
December	328
Total	2152

Summary of High Risk Trades
